Subject: Plan for the day

Good Morning Maryam,

I hope you had a great weekend. Today I will be working on some of Marisa's labels and getting them to the registrant to make the changes needed. I will also be working on treated seed petition slides to make they are ready for the meeting with Michal. Finally, I will be sending an email to BEAD detailing the mitigation in the propagite BiOp so the process of developing the point system can begin. I hope you have a great day.

Best,
Quinn
